## EVIDENCE GIVEN

### IN BRUDERHEIM MURDER TRIAL

Preliminary Hearing Began on Wednesday in Fort Saskatchewan.

The following was the evidence given at the preliminary hearing in the Bruderheim murder case last week which resulted in Lilge and Hohme being sent up for trial.

#### WEDNESDAY AFTERNOON.

Grams, sworn, said: Worked for Nix for two years before Leslie's death. I slept in the house. Leslie slept upstairs over the back of the shop. Leslie, Nix, Campbell and two sons were in the shop. My father had been there. Sam, I think Campbell's name is, Campbell bought something and left, leaving Nix, Leslie and myself. I left first. Nix followed me almost at once, after fighting his pipe, and we both went into the house. Had a smoke while Nix told stories, after which we went to bed. I slept down stairs. Mrs. Nix woke me. I cannot say whether I heard a noise first or not. I opened the door and ran round the corner. It looked as if that corner of the stable was burning. I went to let the horses out. The whole shop was in a big blaze, but the hind part was burned most. I could not get nearer than half across the road, and looked in, but could see nothing. I shouted round to see where Leslie was and then went back to the house and put on more clothing. Mrs. Nix and Mr. Hulbert (the minister) were at the store when I came back. I looked in and saw the body on the right side of the store with the head towards the door and legs towards the rear. He seemed to be lying on his back. The flesh was all burned off his head. The building burned down. I could not say how long it was after I came that it burned down. Nix and I stayed till daylight. Albert went back to the house. After the building came down and the fire got smaller, you could see the body clearly. There was only a little small piece left of his skull as big as a fist with his arms and legs were burned off, the stumps and arm bones showing. Nix sent me down for the schoolmaster (Allen). Gustave Werner came up. The fire was all burned out then. We got orders not to go near. Mr. Hohme came down and told us not to let anyone go near, and to arrest anyone who went near. I asked Hohme on my way to Allen's if he heard the news. He said "Yes; I saw the fire." He thought first it was the church. He came down just after Allen. The door opened to the side they kept the dry goods on; it was there they kept the money. It was behind the east side counter on a shelf. Leslie had three watches; two were

hanging on the shelves on the east side. They were yellow metal. The third had a yellow chain but the watch was supposed to be nickel, but I don't know. It may have been gold too. That was the one he wore. I know one of the gold watches which I examined today. Could not say about the other one. I could not say about the chain either. The chain on the third watch I would also know. It was a kind of a double chain. (A chain was produced and identified.)

After supper I came down to the fire with those people and went to the house and got a letter, which I took down to Alex. Swan's. Hohme wrote the letter. I saw nothing of Lilge until after sunrise. He was not there when I went to Swan's, at least I don't think so; but he was there when I got back. There was still fire when I got back, but one could walk in. I noticed nothing on the floor except the body. I don't remember what day the fire was. On Saturday I dug the grave. It was dug in the Bruderheim grave yard. I left that night and went home. Lilge was there. Inkleman came up to speak to Nix, when Lilge was there and asked if we were going to use the sleigh in the morning. Lilge asked me if I was not working there any more, and I said "No." He said he would get a job for me in the sawmill. I drove up with Lilge, and another to Lilge's from the church. I stayed there, and we were going to the bush on Monday. But we did not go. I had no talk with Lilge on Sunday. I do not remember what I was doing on Monday, except that I went to work in the woods. I was there until I was arrested. I spoke to Lilge sometimes about Leslie, but never heard him say that he knew anything about it. Lilge never told me what really happened with reference to Leslie. Lilge said to me, "They are going to bring up a charge against me." I said, "What?" and he then told me about this case, but not that he had done it. We went down to Inkleman's. On the way over I asked him, "Were you out that night?" He said "No." At Inkleman's, Mrs. Hinckleman said she had met him on the road and he said of course he was out looking for his horse. He had just bought it. When we got outside he said he went up the road a piece and around the straw stack. This stack is in the opposite direction from Leslie's store. I was arrested with Lilge but was not in the same cell. In the guard room I had a conversation with Lilge. He wondered how we would get out and if I got out before him asked would I get him two revolvers and hide them under a stone. I told him I would not. He then told me to tell his brother and he would maybe do it. He wanted me to swear that Hohme had done this. I am mixed up in my head now.

#### THURSDAY, 10 A. M.

Continuing, witness said: This was in the guard room. He spoke to me about the fire, too. He told me that Hohme gave him \$10 to say nothing about it. Lilge wanted me to swear to this. I told him first that I would not, then I thought different and that I would say just what I say now. I did not see Hohme give him any money. At 2:30 a.m. before breakfast, I went down to Werner's. On the way I saw tracks leading into Hohme's place, one track leading in, none that I remember coming out. It had snowed the night before and also was snowing when I came back from church. It was not snowing when I got up to the fire.

## PARLIAMENT

Ottawa, March 10th, 1905  
A Rushing Business

Yesterday was the last day for the introduction of private bills and there was a perfect avalanche. Amongst the number were bills for the incorporation of the Athabasca Railway and Oil Company, the D. R. Fraser Company and the Saskatchewan Bridge Company.

## G.T.P. High Level Bridge

This latter is an application on the part of the Grand Trunk Pacific for authority to bridge the Saskatchewan river at or near Edmonton. The provisions of the bill are similar to those of the bill recently passed by the Canadian Pacific in relation to their proposed high-level bridge. The Bridge Company is made separate from the Railroad Company so that it can be financed as a separate enterprise. This is done with a view to the possible construction of a high level bridge, the cost of which would be too great to warrant the loading of the finances of the railway line with its burden.

## Independence of G.T.P.

Whatever may be the ultimate intention of the Grand Trunk Pacific as to its crossing the Saskatchewan on its way to Edmonton, it is clearly its intention, expressed by this application, not to be placed in a secondary position to the C.P.R., or in any degree be compelled to take a share in the C.P.R. enterprise. It does not at all follow that ultimately this will not be done, but it shows conclusively that the Grand Trunk Pacific is prepared to take care of its own separate interests from the start.

## Will Benefit the Public

Of course there is no probability of two high-level bridges, but with two companies having full authority and sufficient resources to enable each one to build, the prospects of getting at least one bridge under favorable conditions to the general public are very much improved.

## Charters to Burn

The list of applications for railway charters is already longer than usual, the present list containing twenty-six separate proposals. A number have already been disposed of and a number are still to appear on the list. It looks as though the enterprise of chartering railways was taking a spurt. It is to be hoped that vigor in application for charters will be followed by corresponding vigor in prosecuting construction.

## G.T.P. Plans

The Grand Trunk Pacific having floated their first bond issue very successfully are in a position to push construction with the utmost vigor and are preparing to do so. They are very reticent as to their plans, but it is believed that the operation of the coming year will be practically restricted to getting connection between the lakes and the prairies. The distance is a little over 450 miles and of this distance some 200 will be a Grand Trunk Pacific branch running from Fort William north-westerly to strike the main line of the Trans-Continental. The remainder of the distance will be part of the Trans-Continental main line which will be a Government work.

## Work Between Lake and Prairie to be Rushed

The Trans-Continental Railway Commissioners are as reticent as to their plans as are the Grand Trunk Pacific people, but it is reported that arrangements are now being made for the transport of supplies from various points on the C.P.R. line between Winnipeg to Lake Superior to the Trans-Continental main line which passes some distance to the north. Owing to the existence of water-ways it will be possible to commence construction on the Trans-Continental at several points at once instead of it having to be pushed continuously from each end as was the C.P.R., which necessarily made its construction correspondingly slow.

## Ross Brothers Limited

have nearly everything that is required no matter what line of business the mechanic may be in.

These tools have been purchased direct from the best makers in the world in large quantities and For Cash.

## Ross Brothers. Limited

are confident that they can give a better article for less money than any other firm west of Winnipeg. An immense stock of

Stanley Planes  
Diston's Hand Saws  
Heller Bros. Blacksmith Tools  
Madole Hammers  
Nickleson Files

in fact the articles and makes are too numerous to mention here.

## In Builder's Supplies

They lead, and you can get a better choice and greater value than elsewhere in the West.

This is a good time to think up what you want, get prices and make comparisons, for stocks are now complete and if you intend building you may get better prices now than later, for when stocks become depleted it sometimes takes a long time to renew them.

Immense Stock of Barb Wire on hand

# Ross Bros. Ltd

## PARLIAMENT.

Continued from page two

## No Assurance of Work on Prairie this Year

So far there is no word of railway construction this year on the prairies the first necessity being to enable the company to reach the prairies from the lakes over their own lines. Once that is done the prairie will be traversed as quickly as unlimited money, men and the best mechanical appliances can make possible.

## Conditions of Act Delay Work on Eastern Section

It is not likely that actual construction on the eastern section of the Trans-Continental except the part between the prairies and the lakes will be begun this season. There is still a great deal of survey work to be done, and the limitation of the act requiring simultaneous work at various points, makes necessary the absolute completion of the surveys before construction can be begun. It is to be hoped that this limitation will not retard completion of the line between Winnipeg and Fort William.

## The C.N.R. Coming Right Along

The Canadian Northern Railway express themselves very confidently as to reaching Edmonton early next fall. The President, Wm. McKenzie, is in the old country looking after financial matters, and it is asserted, with complete success.

## Confidence in the West

The development of the West which has been looked for so anxiously for so many years is now begun, and a measure of confidence has been created such as was never before known. Already train loads of settlers are leaving Ontario for the west and the reports of the prospective movement of population from the United States are most encouraging.

## The Autonomy Bill

To-day there is nothing doing in regard to the Autonomy Bill, but rumors of a successful settlement are now accepted as correct. Yesterday and to-day in the House the leader and several members of the Opposition attacked the Premier with a view to securing from him a statement as to possible amendments to the Bill; always, however, without success. Yesterday the Premier alluded to the anxiety of the Leader of the Opposition for advance information as to the proposed amendments as showing a desire to make up his mind whether to place his besieging artillery on this bill or on that.

## Material Results of the Crisis

Although an easier feeling prevails, until an announcement is made the situation must be considered critical and it must be recognized that with the possibility of a change of government in the air the securities of Canadian enterprises whose success depends upon the maintenance of present policy will be seriously affected. Every interest calls for a speedy settlement of the difficulty. The fact that the question has remained open so long shows how great the difficulty is.

## Hockey all the Rage

In local circles the Cabinet crisis and the fate of Muelken were a poor second during the past few days to the contest for the Stanley Cup between the Capitals of Ottawa and the Rat Portage team. The match on Monday night resulted in a 3-1 in favor of the Portage. It was played before the largest audience that had ever yet been gathered together in Ottawa. But the second game, on Thursday night, was before a still larger audience and hundreds if not thousands were turned away from the rink.

Thursday night's game resulted in a score of 4-2 in favor of Ottawa. This leaves the teams 1-1 and the finals for Saturday night. Before ten o'clock on Thursday night every seat for Saturday night was sold, and seats are now being bought up at \$5 each and over.

The Rat Portage men are admitted to have given the best looking exhibition of any western team which has yet come east, and on Monday night they played around the Ottawas. At that game, however, two of Ottawa's best men were not playing. On Thursday night they were on, which accounted to some extent for the difference in the score. Their absence on Monday night, however, and their presence on Thursday night gives an explanation of the success which the Ottawa team has hitherto achieved, while nominally amateurs they are practically professionals, and it is currently reported that the two men refused to play on Monday night because their price was not forthcoming. The result on Monday night demonstrated their value and on Thursday night they were in their places.

The Rat Portage men are admitted to be the swiftest skaters and and cleanest players, but on Thursday night the conditions of the ice as a result of a warm day and the rink having been watered only a couple of hours before the match commenced, made the skating heavy and decreased the advantage which they had on Monday night. On Monday night, also, there were two referees so that slugging was practically barred. On Thursday night, with only one referee there was an opportunity for the Ottawa men to get in some of their work in the line in which they excel and which has hitherto enabled them to hold the championship. However, the Portage men are no easy mark either in skating, playing or slugging and it will be lucky if Saturday's match finishes without someone being killed.

## SUMMING UP

THE principal features of my Pharaoh Cigar are as follows:

- 1.—Cuban filler—I select from the best grown in the Manicagua district in the Province of Santa Clara.
- 2.—Connecticut Broadleaf binder—the most expensive grown.
- 3.—Clear leaf Sumatra wrapper, I import direct from Holland.
- 4.—I do not work any tobacco until I age it at least three years—then the taste and fragrance are fully developed.
- 5.—Each cigar is rolled by hand, under my personal supervision—I secure in Pharaoh a steady, even combustion and a cool, sweet smoke.

## JOHN NIX.

John Nix, sworn, said: I live at Bruderheim. I knew Leslie for 15 or 16 years intimately. I was in partnership with him in the store from about November 1st. The house is south of the store, about 200 yards away. I last saw Leslie about 11 p.m. No one was there then but Leslie. Grams had been there. He left shortly before I did. Grams was in the house when I got there. I think he is wrong in his account. We did not sit up, but went to bed at once. I was awakened by an explosion. I could see from the window that there was a fire outside somewhere. Mrs. Nix called to Grams, who went but partly dressed. I saw that the store was on fire when I dressed and went out. The heat was nearly unbearable. The heat was nearly unbearable. There was a little keg of powder in the shop which might have caused an explosion. There must have been \$200 or \$300 in the store. I don't know exactly because Leslie kept the store. Leslie slept upstairs, quite a piece from the stove pipe, south of it. He had not always slept there, only off late. He had a little wire mattress in the northwest corner, but moved nearer the stove to be warm. I saw his blankets where he slept the last time I went upstairs. I don't know of anything in the shop except the stock-in-trade, groceries, dry goods, crockery, hardware, a little of everything. Leslie had his own gold watch hanging on the shelf, and another gold watch hanging beside it for sale. There was also a silver watch Leslie always carried. I saw the chain that night, a two strand gold chain. I don't know the two gold watches. I never handled them. (I think that is the hanging chain—chain produced.) (I think this is Mr. Leslie's chain—broken chain produced.) The cash box was on the top of a cardboard box. It was kept on the shelf. I never saw Leslie with a real cash box. Leslie, I think, carried his bills in a purse on his person. The silver was kept in this box on the shelf. During the next day Lilge picked up two 10-cent pieces that were on the ground. I also saw Leslie's skinning knife. It was used for the purpose of cutting cheese, and lay on the shelf behind the cheese. (That's the knife, or is at all events the same shape—knife produced.) Grams pointed out the skull to Albrecht, who called my attention to it. It was burned white. When the fire died down, there was nothing but the trunk, arms and legs were burned off. The stove was kind of leaning over on his shoulders. There was no search till after the inquest, until then there was a watch, T. Lilge and Grams the first day. Part that time Lilge was alone. That night Lilge, Grams and John Lampert. I lifted the body after the inquest and found a jack-knife (produced) close to where I lifted it from. I found a key alongside the knife. I also found a bachelor's button which I gave to Leslie a week before.

## MRS. HENCKLEMAN.

Mrs. Augusta Henckleman: My house and Lilge's are on the same farm. It is across the road from Lilge's. I remember the night Leslie's shop was burned. I was out at church that night at 1 p.m. My son was with me. He is 16 years old. On my way home I met L. Lilge, not very far from our house. He was going towards the store. He was not far from the house. He had nothing with him. I did not speak to him. I saw at the corner that there was still a light in Leslie's store. I remember L. Lilge and Grams coming to my house on Friday after the fire. There was nothing more said except that Grams asked me if I had really seen Lilge. I said I had. Lilge said nothing. I said to Lilge, "Tell me, did I meet you?" He said, "Oh yes, I knew where I met you." My son's name is Daniel.

Examined by—Mr. Higgar: They were at my place there half an hour. Lilge said, "I know where I met you went for." It was 11 when I got home. My daughter was at church with me, but went home at 9 p.m.

## LYDIA HENCKLEMAN.

Lydia Henckleman, sworn, said: On the night Leslie's store was burned, I went to church with my mother, brother and sister. I went home at 9 p.m. with my sister, aged 8. I met L. Lilge on my way home, not very far from our house. He had nothing with him.

## JULIA LILGE.

Julia Lilge, sworn, said: I am the wife of L. Lilge and live with him. I remember the night of Leslie's fire. My husband was not at home. I cannot say at what time he went away. He left the house three times. I did not see him do anything. The second time he went away he took the rifle and loaded it with a bullet of the kind he generally used for the rifle. It was a bought cartridge. (The kind produced is less pointed than the one he used.) The rifle is a Winchester with a magazine. He put one in the barrel and some a brace him coming in. I did not get up, but was awakened. The lamp was burning and I could see him. A few minutes before he came in I heard a knocking at the door. I did not see if he had anything with him. I was in the next room.

## RAILWAY MATTERS

OF INTEREST TO THE CITY.

Rumors that the C.P.R. will operate the E.Y. & P.-C.T.P. Men Reach Here this Evening.

It is rumored on the street today that the C. P. R. has arranged to acquire control of the E. Y. & P. branch from Strathcona to the city and will take over the road on May 1. No confirmation of the report is obtainable from local sources. If the rumor is substantially correct it is assumed that the road will be halved and the present O & E service continued to Edmonton.

Mr. Morse, vice-president of the G. T. P., together with Mr. Stephens, chief engineer of the road and other officials, who will arrive in the city this evening. Advantage will be taken of their visit here to complete the arrangement provisionally made with them by the Edmonton delegates some weeks since.

The city council will probably meet the visitors this evening regarding the matter.

## COPIES OF REPORTS PRODUCED

In compliance with the written demand made on the secretary of the city, the Bulletin has been furnished with copies of the reports of the finance commissioner and the finance committee in connection with the investigation into the preliminary report of the city auditor. Both reports are of considerable length and their publication will therefore be somewhat delayed. They will, however, appear in these columns within the week.

## Rear-Guard Action

Bulletin Special.

Yinkow Manchuria, March 20th.—Russian rear guard is fighting a heavy action in the vicinity of Kai Xuan twenty miles north of Tie Pass.

## Hockey in the East.

Bulletin Special.

Toronto, March 20.—Rat Portage Thistles got only an even break with a picked Toronto team last night on ice which was of the brand made famous by Ottawa, being covered with water inches deep. It rained all day and conditions were against good hockey, but a big crowd turned out. At half time the score was 4 to 2 in favor of Toronto and 7 to 7 when time was called. No attempt was made to play off the tie on account of the state of the ice. Twenty minute halves were played. The Marlboros left Sunday for Winnipeg to play a series of games with the Rowing Club. They are taking their regular champion seven along.

## New York Men Fell Down.

Bulletin Special.

New York, N.Y., March 20.—Not a single candidate taking the qualifying examinations for 1905 Rhodes scholarships from New York State succeeded in passing.

## Another Case Settled

Bulletin Special.

Belleville, March 20.—Edward Rutan, charged with conspiracy in connection with the ballot box cases, was pronounced not guilty by the jury.

## Shipload of Immigrants

Bulletin Special.

Halifax, March 20.—The Turkish arrived on the first trip of the season bringing 1392 immigrants for the North West, a fine lot of English and Scottish people, mostly young men.

## New York has an Epidemic

Bulletin Special.

New York, March 20th.—Cerebral spinal meningitis which has been prevalent in New York during the winter claimed 386 lives since January 1st. Most of the victims were children. Five died every day for eleven weeks.

## Chinaman Suicide

Bulletin Special.

Long Bridge, March 20th.—Quong Ling a Chinese cook committed suicide last night by hanging himself in an out house in the rear of a Chinese boarding house.

## BORN.

Wilkin.—At Strathcona, on Saturday, March 18, to Mr. and Mrs. W. L. Wilkin, a son.

## STRATHCONA'S WATER SUPPLY.

Plainsdealer. At the recent meeting of ratepayers of Strathcona to discuss the waterworks project, the question arose whether or not the water supply should be obtained from Edmonton or from an independent power house on the Strathcona side of the river. Opinions of both councillors and ratepayers were various, some being decidedly opposed to buying from Edmonton, and others quite as decidedly in favor of doing so. It appears to us that this is simply a business proposition to be considered without prejudice. It is only right and proper that the power available in Edmonton should be considered and the city council asked to submit a definite proposition if they would entertain the idea of supplying water to Strathcona. When such a proposition has been submitted and carefully considered, it will be time enough for the Strathcona council to decide whether it would be advisable to use the Edmonton power. There are many points to be considered: carefully besides the actual cost per gallon of water. One is the volume of water the Edmonton pumps could supply to us. Another is the question of a duplex pumping plant, whether or not to rely upon a plant with two pumping units such as the Edmonton plant has, or one such as is proposed for the Strathcona power house. The independence of Strathcona in the event of future dealings with Edmonton on whatever character they might be, is a matter for consideration which should not be overlooked.

## THE WEE STORE

WHAT HO SHE BUMPS!

"I say, Bill, have you seed the WEE STORE?"

"Well, by Jove now! I thought the south side of Jasper Avenue had a vacant look about it this morning. Guess its gone north with the geese, eh?"

"Not much! its right there on the north corner of 2nd Street and Jasper Avenue west. You know, Bill, I believe, the WEE STORE is going to run the Hudson Bay pretty hard."

"You bet your boots it is."

THE WEE STORE  
For Fruit, Confectionary,  
and Tobacco.

## WANTED.

GOOD AGENTS FOR THE  
Oliver Typewriter

IN ALL

## UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

APPLY TO THE  
CANADIAN OLIVER  
TYPEWRITER CO.,

183A T. JAMES STREET,  
MONTREAL.

## EVIDENCE GIVEN.

Continued from page four

Cross-examined by Mr. Biggar: I did not look at the clock at all that night. He had no lantern. Between the first and second times he went out he was away as long as five minutes. Between the second and third time he put on his boots and fixed the rifle.

## THURSDAY AFTERNOON.

Dr. W. B. L. Donald, sworn, said: I am a medical man and surgeon, residing at Fort Saskatchewan. I held an inquest on the body of a man burned to death at Bruderheim on January 27. I found the body in the ruins of the burned building. (Only the trunk and small bits of the arm bones and stumps of legs remained. The rest was burned off. Saw small charred pieces and the ashes of the rest lying about. I was not present when the body was buried. When I left no preparations had been made for the burial. They were waiting for the undertaker. I went back, I think, on March 20, with Dr. Aylen. A coffin was opened. I did not see it dug up. The coffin was put into a building where I was. It was closed at the time, but was opened at my direction. I recognized the body as the body I had seen at the inquest. Dr. Aylen held a post mortem. I was there. We discovered certain injuries which I could not describe without my notes. I could not say what caused the wounds but we found four, of which Fowler, the undertaker, said he made one. One was a circular wound. The others were longer—one way than the other. The circular wound was about an inch in diameter. I don't remember its position. Dr. Aylen was really making the post mortem.

## DR. AYLEN.

Dr. Aylen, sworn, said: I went to Bruderheim on the 17th of March. I held a post mortem. I saw a body in the church. Dr. Donald was there. The body was in a coffin, which was opened. I found the trunk with head, neck, cervical vertebrae, legs and arms gone, except an inch or so of arms. Anteriorly the organs were not injured, except the small bowels were burnt through in two places. There was a small piece of scorched undershirt under one of the arms. A large piece was taken off the back of the trunk by Surgeon Bevan. One opening about line of 17 1/2 inches to centre was said to have been made by the undertaker. An opening between sixth and seventh ribs into the thoracic cavity, and three inches to left of median line. The seventh rib at this point was fractured and the end charred. The first opening was one inch by half an inch. The second opening into the thoracic was 2 x 1 1/2 inches, and five inches from the spine between the sixth and 7th ribs. The first and second openings were connected. The third was an opening into the thoracic cavity, circular, one inch in diameter, six inches to right of median line, between the 5th and 6th ribs. The sixth rib was fractured at this point. The first and second wounds led into the heart and the third led to the lungs. You could run a probe that far in. These wounds could have been made by any pointed instrument. None of them could, I think, have been made by a bullet. The wound in the heart, would, I think, cause death. On opening the thoracic cavity I found it filled with blood. A small piece of bone apparently from the sixth rib was lying on the right lung. The interior surface of the pericardium was torn from end to end. In the left lung was a wound in interior surface of lower lobe. In the lower lobe of right lung were imbedded two small pieces of bone and under these lungs, and when removed was found three pounds of frozen blood. In the right auricle of heart was a wound penetrating into the cavity. The wound was two inches long. The pericardium is the

Continued on page seven

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding the miners' certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate benchhold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent. collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 254 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices in ten days. If the claim is within terms of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent. on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase and free miners may work their claims in partnership by filing notices and paying fee of \$20.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years. The lessee shall have a survey made, and publishing notice in the Yukon Official Gazette.

Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years. The lessee shall have a survey made, and publishing notice in the Yukon Official Gazette.

Department of Interior, Ottawa, September, 1903.

JAMES A. SMART

Deputy Minister of the Interior,

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smother—palatable and delicately odorous.

J. BRUCE PAYNE, Limited, Granby, P.Q.

For the best I use as binder a Connecticut leaf—leaf, the highest grade and most costly binder grown—and as a wrapper I import direct from Holland a genuine clear leaf Sumatra—the finest wrapper in the world.—J.B.P.

—The Wednesday evening prayer service in the McDougall Church will be conducted this week by the Woman's Missionary Society.

## PERSONAL

J. Brandon went south to-day.

T. Greenway went south to-day.

A. A. Jones went to Calgary this morning.

J. F. Feurt went down the line to-day.

Mrs. and Miss Oliver, left this morning for Ottawa.

L. Ironside, buyer for P. Burns & Co., went south to-day.

Rev. Father Dauphin returned to Hobbsville to-day.

Norman May left for Cranbrook, B.C., on Saturday.

Miss St. Germain came in from the east on Saturday.

R. Scoble returned Saturday from the south.

T. Anderson of the H. B. Co's post at Fort Simpson is in the city.

Mr. and Mrs. A. B. Cushing came in from Banff on Saturday. Mr. Cushing went south this morning.

H. H. Baldwin came in from St. Paul on Saturday to represent J. W. W. & Co., fur buyers.

Mr. Harold Jarvis, the famous tenor of Detroit, will fill an engagement in Edmonton the second week in May.

Mrs. Josephine H. Desilets, Provincial Commander Ladies of the Macabees, has spent the past two weeks in Red Deer, where she expects to form an order of this fraternity in the near future.

Mr. and Mrs. H. H. Wright of Beaver Hills were in the city to-day and called on the city authorities. This is the first time Mrs. Wright has been in Edmonton, and coming as she does from Pennsylvania she sees a quite different country.

## SCHOOLS RE-OPEN.

The Strathcona schools reopened this morning after being closed for two weeks. The epidemic of scarlet fever appears to have been less violent than supposed and the action of the authorities in closing the schools was due to a desire to wipe it out before it had become rampant. The total number of houses quarantined only numbered seven, and the number of cases reported was the same. Vigorous measures were taken to stamp out the disease. It is believed with complete success.

## THE ALBERTA CHAMPIONSHIP.

The warm weather of yesterday and to-day has probably closed the hockey season. Arrangements were made on Saturday, however, for playing the championship on Monday, Tuesday and Wednesday evenings of this week the conditions of the ice permitting. The teams were unable to agree on a referee and the trustees of the cup were called on to choose a man. They chose Nash formerly captain of the Winnipeg Vics., as referee and Powers formerly captain of the Quebec team as judge of play.

It is understood a protest has been entered against Elliott and McKee of the Strathcona team on the ground that they have not been residents of the town for the prescribed three months.

Should the conditions of the ice permit the games to be pulled off the Edmonton team will probably be comprised of Deaton, Elliott, Greenwood, Wright, Banford, Johnson, and Watson.

## BOARD OF TRADE CONVENTION.

Wm. Trant, secretary of the Associated Boards of Trade of the N. W. T., is sending the following circular letter to the secretary of Boards in the Territories:

Dear Sir—  
The first annual Convention of the Boards of Trade of the Northwest Territories, held at Calgary on the 15th and 16th of June, 1904, decided by resolution that the second Convention should meet in the City of Regina; and the Regina Board of Trade was empowered and authorized to make the necessary arrangements.

In accordance therewith the Regina Board of Trade has begun the work of organizing the Convention of 1905, the dates selected for holding the Convention being the 29th and 30th of June proximo.

It was further decided at the Calgary Convention that each Board of Trade, regularly organized, whether incorporated or not, should be entitled to send delegates to the Convention according to the following scale:—

Boards not having over 20 members, 2 delegates.

Boards having 21 and not over 40 members, 3 delegates.

Boards having 41 and not over 65 members, 4 delegates.

Boards having 66 members and upwards, 5 delegates.

It was also provided that when sending to the Secretary of the Convention the names and addresses of the delegates, the Secretaries of the respective Boards should furnish satisfactory evidence of regular organization, with a list of members showing a membership of fifteen or more, for a period of at least six months prior to the holding of the Convention, and each of whom has paid a membership fee of not less than one dollar.

I am directed by Regina Board of Trade, therefore, to ask you to convey this information to your board with a view to the selection of delegates to represent your Board at the Convention, and also to decide what subject or subjects, resolution or resolutions, your board may desire to submit for discussion or decision.

The Convention held at Calgary last year imposed upon this year's Convention the task of organizing the associated Boards of Trade of the Northwest Territories upon a permanent basis.

The following resolution was also passed at the same Convention:—  
"That at future Conventions Manitoba and British Columbia be represented by invited delegates, who shall have the privilege of making motions and amendments, and of taking part in debate, but not of exercising voting powers."

I shall be glad if you will inform me as soon as possible, and certainly not later than June 9th, of the selections made and the decisions arrived at by your board, so that the subjects for discussion may be communicated to all the associated Boards of Trade, and the several delegates be thus prepared for debate by mature consideration of those questions that are of interest to their respective Boards.
